COMMENTS FROM THE TOWN MANAGER'S OFFICE

The reconstruction of Mason Street is moving along at a good rate but it will not be done before school starts. The application of gravel will start this week but it might not be quite finished by next Wednesday. The graveling will be started on the Chapman Street end as the buses won't have as much trouble at the junction of Mason Street and Crescent Street. All of the manholes and catch basins have been constructed and the street should have a smoother grade. The slight curve that was in the middle of the street has been removed so that the street is straight now. The utility companies have all the utility lines on one set of poles. The removal of several poles will greatly help the final appearance of the street.

Surplus food will be distributed the last of this week and all recipients must be re-certified this month. A new form is now in use for re-certification and additional information is needed to complete the form. Besides the regular information, the one picking up the donated commodities should have a list of the names and ages and incomes of all persons living in the household. All of these facts will have to be filled out on the new forms before the surplus food can be given out. Any person or head of a household who does not have all of the required information will not get the surplus food.

HEALTH COUNCIL

The need for each person in the area to realize that the success of the Bethel Health and Service Council depends on seeing that the organizations to which he belongs send representatives to Council meetings regularly, was stressed at a recent meeting of the executive committee of the Council.

Only in this way can the council function as it was originally formed to do in order to bring the roster of authorized representatives up to date. Mrs. Ruth Chase, secretary, will notify each organization again to send her the name of its representative. Then she will notify each representative directly by postal card before each meeting.

At the meeting it was brought to the group's attention that possibly some recipients of aid from the council would like to be given an opportunity to repay the council through service, and it was mentioned that this might be done by working on clothing projects, helping with transportation to clinics, filling food baskets, or assisting with other committee activities.

A review of the status of families who have been receiving help recently will be made to see if they remain in the emergency category for which the service aspect of the council's work was intended.

The calls are examined as carefully as possible, with new requests being referred usually through the school department, district nurse, or office or social worker. Emergency calls are responded to after checking with each member of the finance committee for approval.

In line with encouraging families to take over projects on behalf of their children, as soon as financially possible, Mrs. Alvin Barth reported that parents of some 23 boys and girls who have received eye care through the Council would be continued on page four.

OF
FINANCIAL REPORT

JUNE 30, 1964

HENRY L. CRANSHAW
STATE CONTROLLERLEO H. FOX
ASSISTANT CONTROLLERSTATE OF MAINE
DEPARTMENT OF FINANCE & ADMINISTRATION
BUREAU OF ACCOUNTS AND CONTROL
AUGUSTATo Governor John H. Reed and
Members of the Executive Council
August 27, 1964

A condensed summary of the activity in the operating funds of the State of Maine for the year ended June 30, 1964, is submitted, as authorized by statute. Total bonded debt as of June 30, 1964 amounted to \$73,521,000, a net increase of \$2,766,000 as compared with June 30, 1963. In addition to bonds issued and outstanding there is a contingent liability of almost 16.5 million dollars in connection with insured industrial mortgages and conditional commitments.

Unappropriated surplus of the General Fund at June 30, 1964 amounted to \$1,084,555. The major factors that contributed to this surplus were—revenue in excess of appropriations of \$2.3 million and unexpended departmental balances of \$1.4 million that were lapsed at the year end.

The 1964 Legislature has already appropriated \$425,634 effective July 1, 1964 leaving a balance available in unappropriated surplus of \$3,558,921.

A balance sheet reflecting the financial condition of the respective funds and schedules in more detail will be available in the financial report now being prepared.

For conciseness and easier readability the cents have been omitted in the accompanying schedules and consequently the detail does not add to the totals in all cases.

Figures as presented are subject to such adjustments as may be noted during the period between the above date and publication of the annual financial report.

Very truly yours,
Henry L. Cranshaw
State Controller

COMMUNITY CENTER FUND

Recent contributions to the Bethel Players' drive, to benefit the Bethel Community Center Fund, have boosted this fund to \$1,354.55. From all reports, Bethel people are aware of the great need for a community recreation center as evidenced by the generous support and encouraging letters. Names added to the list of contributors included Mr. and Mrs. Guy P. Butler and Mr. and Mrs. Clayton Crockett. Alder River Grange No. 145, through the proceeds of a food sale, made a generous contribution. Bethel Players wish to thank these patrons for their support.

Interested contributors are again invited to forward their donations, large or small, for deposit in the Bethel Community Center Fund, Bethel Savings Bank, to Mrs. Richard Bryant, Treasurer, Bethel, Maine. It is also hoped that many local organizations will include a fund raising project

among their year's activities for this benefit.

This is a community project! With the help and support of everyone, a modern community center will someday become a reality for us all. Let's all help boost this fund!
